AURORA.
The flower resembles in shape a high-built Chrysanthemum. The color is light pink. A very pleasing shade. $1.00 per dozen.

ALBERT STOPPORD.

This is an improved Bon Silene. Color dark crimson rose. A very vigorous, free-blooming variety. $1.00 per dozen.

Identical with Belle Siebrecht, except that it is a vigorous climber. Its delicate, bright pink flowers measure five to six inches in diameter. A gem. $1.50 per dozen.

DUCHESS D'ARENBERG.

This Rose resembles that charming variety Grace Darling, having the same delicate shades, but with the advantage over that variety in its being a more vigorous grower. $1.00 per dozen.

GARDENIA.

A novelty which must not be confused with Manda's Hybrid Wichuriana. This is one of the prettiest and daintiest of garden Roses. It is fine in foliages: very fine in bloom. Its buds are slender and pointed, as they open showing a flesh pink center surrounded by snowy white. The open flower recovers its petals, which are of heavy texture, and its form is like a Cape Jasmine, hence its name. The open flower is the purest white. A free grower and very fine in bloom. $1.00 per dozen.

JOHANNA WESSENFHOF.

This is the finest grand bedding yellow Rose. It is a deep golden yellow, and is such a good bedding Rose that it is already cult. by some the Bedding Perle. It is certainly fine. $2.50 per dozen.

META.

This is a grand, high-colored variety. It has all the different shades of color, with a few additions, that Lucile has. Coppery yellow, suffused with pink and crimson. $1.00 per dozen.

MADAME BOULET.

A very delicate pink-colored Rose. Somewhat of the Testout type. $2.50 per dozen.

MADAME DURANTHIN.

This is one of the most unique colored Roses in existence. It combines the delicate shades of Princess Beatrice with the more ruddy coloring of Madame Margottin. This is indeed a beauty. $1.50 per dozen.

MADAME HUSSON.

A light-colored Rose with yellow center, like Madame Caroline Kuster, only deeper and richer. $1.00 per dozen.

PIERRE MIGNON.

A very delicate shade of light pink. Has decided merits. $1.00 per dozen.

PSYCHE, THE NEW RAMBLER ROSE.

Received the award of merit of the Royal Horticultural Society of England. A cross between Crimson Rambler and the Polyantha Rose Golden Fairy. In growth and habit it much resembles Crimson Rambler. The flowers are produced in clusters of eight to thirty-five and are two to two and a half inches across when fully expanded. The color is white, suffused with salmon rose and pink, with yellow buds to the petals. A real companion to Crimson Rambler. The horticultural press of England gives it very flattering comment as described at the various exhibitions. 75 cents per dozen; $6.00 per hundred.

QUEEN OLGA OF GREECE.

This Rose comes to us very highly praised. So far we have failed to detect what these merits are. It may improve with a longer acquaintance. The color is light pink. $1.00 per dozen.

SOUV. DE MD. EUGENE COUVIN.

We think highly of this Rose. It is a fine grower and free bloomer. Flowers when open flat. It combines shades of white and yellow in pleasing harmony, with center of flower deeper yellow. Very desirable. $1.50 per dozen.

MRS. MAWLEY.

This grand variety embodies so many good qualities that it is difficult to describe it. We could say no more in its praise than to say it is like Maman Cochet, only several shades lighter in color. $1.00 per dozen.
ANTOINE RIVOIRE.

A handsome new Rose of vigorous habit of growth, with large, full, Camellia-shaped flowers. Color rose flesh, on a yellow ground, shaded with a border of carmine; flowers five inches in diameter. A remarkable variety of great worth. $0.50 cents per dozen.

ADMIRAL DEWEY.

In color this is among the most beautiful of pink Roses, a delicate daybreak blush, clear and distinct and very captivating, nothing weak or washy in color. It is a sport from Madame Caroline Testout, is more vigorous in habit and a very free bloomer. Like Testout, the flowers are very perfect in form, a little lacking in fullness when fully expanded, forces finely and is very fragrant; a fine cold weather Rose of enormous size. $1.00 per dozen; $0.50 per hundred.

BARDOU JOB. The Saucer Rose.

This is not, strictly speaking, a new Rose, but its merits have only been discovered in the past year. It is scarce, and will be so for some time to come. It is of a semi-climbing habit, being quite vigorous and strong. The foliage is large and lacy. The flowers are very large, and resemble a saucer in shape, semi-double. The color is the deepest, richest velvety crimson of all Roses. We know of nothing in the Rose family so rich in color. A well grown bunch of these Roses will startle you. 60 cents per dozen.

CLIMBING PAUL NEYRON.

(Madame Wagram.—A grand new Rose. Paul Neyron has always been known as the largest Rose extant. In Climbing Paul Neyron we have this large size, coupled with its bright, fresh pink color that no Rose excels. And it is also a true perpetual bloomer. The freest of all climbers. This Rose is a wonder. Be sure to try it. 60 cents per dozen; $4.00 per hundred.

BALDIN.

One of the most remarkable Roses of recent date, as strong growing as the best of the Hybrid Perpetuals, whose large, handsome foliage, flowers of the fullest form and largest size, which is equalled in profusion by no other Rose of its size that we have seen. The color is bright, glowing carmine, and if this Rose were constant in shade it would outrank all others of its color. Its one and only defect is that it at times comes “off color.” The bud is long and elegantly pointed; it is as sweet as a June Rose. Its many good qualities will make friends for it despite its one fault. 75 cents per dozen; $5.00 per hundred.

CLIMBING MALMAISON.

This is identical with the old Malmaison, except that it is a vigorous climber. Indeed, it is the most rampant of all the ever-blooming climbers. This is already a fixture in our list of Climbing Roses, from its decided merits. 50 cents per dozen; $3.00 per hundred.

A Rose among Roses, CLIMBING BRIDESMAID.

If there is one Rose more beautiful than another, that Rose is Bridesmaid. It is the standard pink cut-flower Rose of America. It has many rivals, but as yet it holds its own as one of the grandest Roses in commerce. It represents the highest degree of beauty yet attained in Roses of its class. It is distinct in form, distinct in growth, and equally distinct in color. When we first offered this new variety as a sport from Bridesmaid, its popularity was assured. We proceeded to grow as many as we could, but the demand kept the supply down. Not until this year have we been able to get it in such quantity as would allow us to bring it into prominent notice and offer it at a popular price. We want our customers to try this Rose, more especially those whose Winters are not too severe. It is quite hardy, but where the Winters are very cold and long, it should be carefully protected in open ground. It grows rapidly and strongly, and blooms as freely as does its parent, Bridesmaid, which is practically all the time. The flowers are simply beautiful (identical with Bridesmaid), clear dark pink; in bud they are superb beyond anything we have ever seen. This is one of the most valuable additions to the Climbing Tea Roses made in recent years. 50 cents per dozen; $3.00 per hundred.

New Hardy, Ever-Blooming Crimson Rose, CLIMBING WOOTTON.

To our mind this is one of the best Roses in this book, for these reasons: It is hardy, has no weak spots, grows with wonderful vigor, blooms continually throughout the growing season, producing flowers that are nothing less than superb, both in beauty and in fragrance. These we think are the points that make a good Rose, and in this variety we have one. It is a sport from that famous Rose, Souv. de Wootton, and is identical with it except that it is a strong, rampant climber, growing in one season to a height of 10 to 15 feet, and producing in wonderful profusion its superbly formed flowers, which are bright magenta red, shading to violet-crimson, richly shaded. The flowers are large, full and fragrant, with thick, leathery petals, and deliciously scented. Makes beautiful buds. As an outdoor climbing Rose, it will take front rank because of its hardness, strong growth and freedom of bloom. A well developed bush covered with finely formed flowers is beautiful beyond anything we have ever seen. Truly this is a magnificent and valuable new Rose. 60 cents per dozen; $4.00 per hundred.
The Burbank Rose. A Perfectly Hardy, New, Ever-Blooming Rose.

This lovely Rose was raised by Mr. Luther Burbank of California, known the world over as the “Wizard of Horticulture,” and is the only variety out of seventy-five thousand cross-bred seedlings which he raised that he will now willing should bear his name. The Rose is the only rival that the famous variety Champion of the World has. The color is described as cherry crimson—it is, in other words, the very deepest and brightest pink Rose in cultivation. It is peculiarly adapted for both outdoor planting or for blooming in pots in the house during Winter. It is a strong, vigorous grower, making well rounded, bushy plants. The Burbank Rose is perfectly hardy, and will stand all but the most severe winters. This is a decided point in its favor over so many of our lovely Roses, they being too tender to withstand the extreme cold. The Burbank can be planted anywhere. The Burbank is without doubt the freest-blooming Rose in cultivation. It commences to bloom when only a few inches high, and blooms throughout the season until stopped by freezing weather. The flowers are double, three inches across; the whole flower is most pleasing in its rich beauty, and is delightfully fragrant. 50 cents per dozen; $3.00 per hundred.

CLARA WATSON.

A free-blooming Tea Rose of English origin with many distinctive features. The flowers are very graceful, resembling Bridesmaid in form, and are produced in remarkable profusion. For freedom of bloom this variety is especially valuable. They are very beautiful, and are supported on long stems, making it desirable for cutting. This is a salmon pink, very difficult to describe. Will take a place among the best Roses. 50 cents per dozen; $3.00 per hundred.

OARLMINE PILLAR. (The Butterfly Rose.)

Hardy climber. The flower is from three and a half to four inches across, of the brightest scarlet, and produced very abundantly. The display lasts for several weeks, and is quite hardy. One of the very finest of shrubby Red Roses. Of the freest growth, it is so dainty and graceful as to be given the name of the Butterfly Rose. 50 cents per dozen; $3.00 per hundred.

Grand New Velvety Red Rose, CLIMBING METEOR

The brightest colored of all Roses. It has been called a perpetual blooming climber. General Jacqueminot. All who know the “Red Jack” will call to mind its fretful, high-colored, rich, velvety red buds and flowers. Climbing Meteor is one of all red Climbing Roses. It is a free, persistent grower and will make a growth of from ten to fifteen feet in a season. In bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all Roses for summer flowering, as it will make a strong growth, and is literally loaded with its deep, rich red flowers all the time. Its flowers are much larger than Meteor and are richer in center. It is just the Rose to train up to the veranda or around window-sills where its great beauty will show up to advantage. Don’t fail to plant one or more of Climbing Meteor. 50 cents per dozen; $2.50 per hundred.

EMPERESS OF CHINA

The Apple Blossom Rose.

This is a new, hardy climber that possesses great merit. It is a strong, rampant grower, and a very free bloomer. Flowers of good size, from pointed buds, soft red, turning lighter as it opens. It blooms from May to December in the open ground. It will, in our estimation, become a standard variety for flowering to bloom in pots for winter purposes, as it is such a free and persistent grower. Introduced from China. 50 cents per dozen; $2.50 per hundred.

ENCHANTRESS

This variety belongs among the leaders. It blooms with astonishing freedom, bearing its large, globular, double flowers in immense clusters. It is as free blooming as any Rose in our collection. The color is creamy white, slightly shaded with the center. Of vigorous growth, fine foliage and highly valuable, both in pots for late Autumn and Winter blooming, as well as for general planting in open ground during the summer. 50 cents per dozen; $3.00 per hundred.

FRANCIS DUBREUIL.

This is a grand new, red Rose. The color is a deep, vivid crimson, with rich, velvety shadings. Fine for open ground planting. 50 cents per dozen; $2.50 per hundred.

FERNANDO JAIMÁN

A strong, vigorous grower and free bloomer of the Hybrid Tea class. Flowers large, full and globular. Color rosy carmine, shaded with salmon. The center of the Rose is light, while the color graduates and deepens to its very tips, resembling a halo of glory. 75 cents per dozen; $3.00 per hundred.

GOLDEN GATE, The Great Forcing Rose

This variety, while not new, has recently attracted considerable attention, and is considered by many one of the most valuable Winter-blooming Roses now grown. It does best in a temperature that grows fine Bridesmaids. Under favorable conditions its salmon blooms are often as large as American Beauty, and are borne on strong, heavy canes, stiff as reeds. When well grown it is of exquisite color—shell pink, shading to creamy flesh on outer petals. This Rose has been grown quite largely in the vicinity of Washington, where it has been received with great favor. It is a favorite with both grower and retailer, and commands the highest prices of any Tea Rose. See illustration on page 5. 50 cents per dozen; $3.00 per hundred.

GRUSS AN TEPLITZ.

As a bedding Rose this is one of the finest and most useful varieties ever sent out. Many of our customers who bought it the past Spring are realizing its value and singing its praises. It will take rank with Hermosa or Souptert. The color is brightest scarlet, shading to deep rich, velvety crimson. It is very fragrant. The freest grower and the most profuse bloomer of any ever-blooming. The mass of color produced is wonderful, and the foliage is extremely beautiful, all the smaller growth being a bronze plum color. A queen among scarlet bedding. It is a perfect sheet of richest crimson scarlet all Summer. It will undoubtedly supersede Agrippina, Queen's Scarlet, and others of this class. 60 cents per dozen; $4.00 per hundred.
GENERAL ROBERT E. LEE.

This is the first Rose that we have introduced, and we are sure that we who try it. It is in color an orange yellow, after the style of Ma Capehine, only richer and better. It is a good grower, has elegant, long buds borne on strong wood, and will produce more buds than any Rose we know of. It colors up much deeper and richer in cloudy weather, which will make it a useful Rose for forcing. We are sure the color is so peculiar and rich that it attracts attention wherever seen. Try it. 50 cents per dozen; $2.50 per hundred.

HELENE. The New Rambler.

A seedling from Crimson Rambler originated by a famous hybridizer of Rambler Roses, from whom we obtained our stock. Flowers larger than those of Crimson Rambler, new and distinct, and borne in clusters of twenty to fifty. Color soft violet rose, yellowish white at base of petals. Anthers pure yellow and numerous. Habit fully as strong as Crimson Rambler, but much more graceful. Foliage like Crimson Rambler. Hardy. 10 cents each; 50 cents per dozen; $3.00 per hundred.

HELEN CAMBIER.

This lovely coppery yellow Hybrid Tea Ever-Blooming Rose will fill a long needed gap for a good yellow Rose which combines vigorous hardiness with rich color and fine-blooming qualities. This Hellen Cambl er does. It is a new Rose of French origin, destined, we believe, to find a prominent place among the highest grade ever-blooming Roses, both for Summer and Winter blooming. The flowers are free and very free blooming, flowers of splendid substance and a delightful shade of deep rich coppery yellow. In extreme heat it forms a deep amber color. The buds are full and firm, lasting a long time when cut. As the flowers expand the center of the Rose discloses a mantle of golden yellow, with light orange tints, while the outer petals lose their luster, giving a combination of pale and deep colors unequaled in their beauty. Without question this is a charming Rose for the garden. 50 cents per dozen; $2.50 per hundred.

LADY DOROTHEA.

The Greatly Improved Kaisergarten.

One of the most beautiful of all Climbing Roses. Color hard to describe, but perfectly magnificent in tint. It is a sport from Perle des Jardins, and is a lovely mingling of pink and tawny buff. A warm, bright color, but lacking the coppery red found in Sunset, to the distinct and valuable variety of the finest of the Perle family. Foliage is handsome, the flower, A fine forcing variety. $1.00 per dozen; $6.00 per hundred.

MRS. ROB'T PEARLY, or Climbing Kaiserin.

This is without doubt the grandest of all white climbing Roses. It is the first and only pure white, hardy, ever-blooming climber Rose, and as such meets a demand that has never before been supplied. Small plants bloom continually the first season, just as the parent, Kaiserin, since it is a Hybrid Perpetual or Moss Rose, and will withstand your Winters, as well as the most severe Winters. It is a strong, rapid grower, a beauty in perfection in open ground, and throwing up numerous shoots ten to fifteen feet high, in a single season. The flowers are something grand. Both color and shape are equal to the finest and most beautiful cut-flower Roses. Of splendid substance and of the finest quality, and are produced on long, stiff stems, like a forcing or cut flower Rose. The buds are long and pointed, exquisitely modeled and gracefully finished. Both in bud and flower it is truly beautiful. It has a fragrance that is delicious.

If you want a quick-growing, absolutely hardy, climbing, single bloom Rose, one that will give you flowers this season, this is the only white variety that will do. Be sure to get this wonderful variety. Its magnificent flowers, foliage and healthy growth will astonish you. This is the greatest of all climbing Roses. See Illustration on page 4. 50 cents per dozen; $2.50 per hundred.

MAID OF HONOR. The Brighter Bridesmaid.

Advertised as Miss Clara Barton. This grand sport from Bridesmaid originated with the Hoffmeisters, of Ohio. They say of it: After passing the last two years, we are able to state—first that this color is a rich, glowing pink, darker than Bridesmaid. 2d. That it is an excellent keeper, far longer lasting than the latter. 3d. That it is a most prolific bloomer, with all perfect buds. 50 cents per dozen; $3.00 per hundred.

MURIEL GRAHAM.

The latest addition to the Mermet family, being a sport from that fine variety, identical with it in everything except its color, but far surer and more reliable during the past season in its social events. This is a wonderfully strong, healthy, vigorous, fine-blooming variety, with rich, bright yellow blossoms. A wonderful bedding Rose, as it is a prolific and continuous bloomer. Flowers are large and full, petals recurved and of a beautiful creamy yellow, very free blooming, million and tinged with salmon; the base of the petals is very highly colored, being a combination of the foregoing shades, very freely accentuated. This will undoubtedly make a fine garden Rose, combining in its substance and hardiness, long stems, so that it is The Flowers. The Rose on exceedingly well adapted for vases and in cut flowers. 50 cents per dozen; $3.00 per hundred.

MOSELLA, or YEL-LOW SOUPERT.

Rosella is a stronger grower, flowers are a little larger than Clothilde Soupert, but appear the same way in clusters and on single stems. The color is a chrome yellow in the center, getting creamy white on the outside of the petals. It will make a great bedder and perfectly hardy. 50 cents per dozen; $2.50 per hundred.
from the rest, as it was a vase of Roses. But such Roses! They towered above the Carnations on strong stems clothed with heavy foliage, and were as large as American Beauties, but of a beautiful clear pink, almost light enough to be called a shell pink." See illustration on page 4. 50 cents per dozen; $3.50 per hundred.

A GRAND PRINCESS GUGLIT.

A strong grower, producing a long bud, flower large and beautifully formed. Color salmon yellow, with shadings of carmine. A most remarkable combination of colors. 50 cents per dozen; $3.00 per hundred.

PRESIDENT CLEVELAND, or Climbing Marie Guillot. A Glorious New Rose.

This Rose has been grown around Houston, Texas, for several years under the name of President Cleveland. If you have never seen Marie Guillot growing at its best in the open ground, you cannot conceive of the beauty of its large, handsome white flowers. It has been termed the "Queen of White Roses." and while there are many white varieties of unquestionable excellence, there are none more reliable for outdoor cultivation than Marie Guillot. Climbing Marie Guillot possesses all the valuable features of a famous parent, from which it differs only in habit of growth. It is one of the most rapid growing and vigorous climbing Roses we have ever seen, small plants making a growth of ten to twenty feet in five months. It is an exceedingly hardy Rose, and every year contributes that a perfect Rose should have. It blooms continuously throughout the season from the first of May to the last and every year. The flowers are magnificently made, extra large, deep and double. The buds are particularly beautiful and the fragrance delightful. The color is pure white and sometimes faintly tinged toward the center with pale yellow. It will prove moderately hardy with protection, but it will be seen at its best in the South, Southwest and Coast States (where the Winters are mild). It will bloom the whole year around in the far South, and wherever Marechal Niel is grown the varieties will find equal it in beauty of flowers and surpass it in vigor and growth. It is one of the very finest Roses and is valued at 50 cents per dozen; $3.50 per hundred.

ROYAL CLUSTER.

"The name 'Royal Cluster' has been given, not because of the great size and beauty of its clusters. One hundred and nineteen flowers and buds have been counted at one cluster. The flowers are white, generally colored with blush when breaking; of medium size, quite double, beautifully formed and durable, making Royal Cluster the very best companion for the Crimson Renaissance yet introduced, and it and the much will become a popular forcing Rose. Royal Cluster is a vigorous climber and a free bloomer, continuing a long time in bloom. It is a very striking novelty." 50 cents per dozen; $3.00 per hundred.

SOUVENIR DU PRESIDENT CARNOT

With all our admiration for the hosts of beautiful Roses, this variety is so fascinating that we believe it to be, everything considered, one of the greatest introductions of the last ten years. It is superb in every way. The flowers are large, full and double, exquisitely shaped, with heavy, thick, shell-like petals. The buds are wonderfully beautiful—long and pointed like Niphotos—perfection in every line. The color is a new, delicate rose pink, shaded a trifle deeper in center of flower. Fragrance delicious, strong grower and free bloomer; has no weak point; will become one of the most popular of all Roses. See illustration on page 5. 50 cents per dozen; $3.00 per hundred.

SOUVENIR DE MADAME EUGÈNE VERDIER

An extra fine variety, producing a hundred large, full and double Roses, tinged with crimson of the Austrian copper. The open flower is large and full, and a wonderful combination of color. Very fragrant and a free and easy grower. 50 cents per dozen; $3.50 per hundred.

White Maman Cochet, or PRISCILLA.

The charming New White Tea Rose.

Another new American Rose, but as we are accustomed to all other white Roses as one can well imagine. It belongs to the Tea class, being a child of that grandest of bedding or outdoor Roses, Maman Cochet, and is hardy here in our Ohio, with slight protection in Winter. Its habit is exceedingly strong and upright, like its parent, and it possesses the same large, beautiful, healthy foliage, and is as most profuse and constant bloomer. The flowers are of enormous size, remarkably round and full, pure, clear, snowy white throughout and are delight of every savor. It is by far the finest and most reliable white bedding Rose yet produced, and should be planted by everybody. By planting a few of these, we have the very finest Roses for cutting and for use in vases, upon altar, dining table, in parlor, etc., all Summer and Autumn. Without question the largest white Rose, both in size of flowers and in every way. This Rose will disappoint no one who plants it. 50 cents per dozen; $2.50 per hundred.

WHITE BOUGEVER.

A sport from that famous old variety Bougere. For open ground planting it has no superior. The flowers are unusual, deep, full and double, long, stiff stems, and borne throughout the season in greatest abundance. The color is a pure ivory white. Very beautiful, and a particular favorite with all for general planting. 50 cents per dozen; $3.00 per hundred.

Color a soft China rose, changing to bright deep carmine of even shading. An extra good Rose and very sweet. 50 cents per dozen; $2.50 per hundred.

KAISERIN AUGUSTA VICTORIA.
This is one of the grandest of all Roses. It is a strong, vigorous grower, producing buds and flowers of enormous size. Color pure white. We have no hesitancy in saying that this Rose is unequalled by any other variety in its color. It is a grand Winter bloomer, and is largely forced for cut flowers. A grand garden Rose on account of its vigorous growth and hardiness. 50 cents per dozen; $2.50 per hundred.

LA FRANCE.
No variety can surpass it in delicate coloring—silvery rose shades, with pink. It has a satin sheen over all its petals. It is universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. 50 cents per dozen; $3.00 per hundred.

Another good Rose, producing very long, pointed buds of a coppery color, suffused with pink and crimson. This Rose we recommend for its many good qualities. 50 cents per dozen; $3.00 per hundred.

LEONIE OSTERIETH, or White Soupert.
We have given this Rose an extended trial, and believe there is no better white Rose grown. The buds are of good size, the flower full and double, and deliciously fragrant. Pure porcelain white, with deep center, in freedom of bloom this charming variety rivals the Polyanthas. 50 cents per dozen; $2.50 per hundred.

MADAME DE WATTEVILLE.
Color a beautiful, creamy yellow, tinged with rosy blush; large, shell-like petals, having bright, crimson-shaded border. 50 cents per dozen; $3.00 per hundred.

MADAME A. VEYSSET. Striped La France.
A magnificent new Rose, identical in every respect with its parent, La France, except in two particulars—it is much stronger in growth, and the flowers are beautifully striped and shaded a delicate white. The coloring is exquisite, and we think this Rose will please cut-flower buyers. It forces freely, and produces magnificent large buds and flowers. 50 cents per dozen; $2.50 per hundred.

MADAME DE VATRY.
One of the brightest of Roses. We consider this splendid variety to be one of the very best and most satisfactory Roses for general planting, especially outdoors. The people in the South fairly rave over its great beauty. In New Orleans it is a prime favorite. Makes big, clean buds of great beauty and opens well, showing the large, full, double flowers to great advantage. The color is a rich red, changing to silvery peach—reminiscent one of the delicate hues seen on the inside of the fairest deep sea
shells—rosy flesh bathed in golden amber, broad, shell-like petals, balanced, and beautiful. In a most agreeable way a true Rose. 50 cents per dozen; $2.50 per hundred.

**MADAME ELIE LAMBERT.**
The color is somewhat in the way of Madame de Watteville, larger. Rich creamy white, faintly tinted with pale golden yellow, and exquisitely bordered and shaded with soft rosy flesh, exceedingly beautiful of every shade and also those of good substance, constant and profuse bloomer. A magnificent Rose in every way. 50 cents per dozen; $2.50 per hundred.

Flowers a bright lemon, with canary yellow centers. Very full buds, with high centers, foliage dark and thick in color, like Perle. See illustration on page 8. 50 cents per dozen; $2.50 per hundred.

**MADAME HBSTE.**
It possesses all the requisites of a first-class forcing Rose, viz: strong, vigorous growth, large, well-formed buds, freely produced. We believe this Rose to be one that will continue to assert its claim until it is as generally grown as Perle or Niphotos. 50 cents per dozen; $2.50 per hundred.

**MADAME JOSEPH SCHWARTZ.**
A most useful variety for pot culture, and in every way desirable for market purposes. Good bedder, color white, beautifully flushed with pink. 50 cents per dozen; $2.50 per hundred.

**MADEMOISELLE CECILE BERTHOD.**
Most beautiful, both in bud and flower, which is deep golden yellow. In fact, the deepest yellow in color of any Rose we grow. The foliage is very bright. Altogether a grand Rose and always in bloom. 50 cents per dozen; $2.50 per hundred.

**MAMAN COCHET.**
This Rose attracted our attention from the very first time we saw it in flower. It comes from France—the country that has produced nearly all of our best Roses. We are not alone in our admiration of it, as all the visitors to our establishment the past season have been unavailing in their praise. It is a vigorous grower, with beautiful, pretty foliage. In bud it resembles the Mernet family, being long and shapely, borne on long, stiff stems. It is of the largest size, and, as you will notice, the flower is built up or rounded and very double. The color is a deep, rosy pink, the inner side of the petals being a silver rose, shaded and touched with golden yellow. We pronounce this the finest Rose by far that has been introduced from France in the past five years. No Rose surpasses it in vigorous growth and in the immense size of its buds and flowers. Indeed, nothing in the Tea family approaches it in size. Deliciously fragrant. 50 cents per dozen; $2.50 per hundred.

**MADEMOISELLE FRANCISCA KRUEGER.**
It is closely allied to Catherine Mermet, and resembles it in everything save color. In its shading of deep coppery yellow it stands unique and distinct from all others. The flower when open is of good size and very symmetrical. 50 cents per dozen; $2.50 per hundred.

PRINCESS SAGAN.
A strong-growing Rose, with small, closely set, dark foliage, and medium sized flowers of the brightest scarlet and velvety texture. 50 cents per dozen; $2.50 per hundred.

SNOWFLAKE, Marie Lambert.
This is a lovely white Rose, a pure Tea, but a foreign seedling, the freest flowering white Rose we have seen. It will be especially useful in set designs. For a pot plant it cannot be excelled, as it possesses every quality of a pot Rose. We counted on one plant one hundred and forty-three buds and flowers in a single day, and the plant was only nine months old. It can be used in place of white Carnations for set pieces at an immense saving, because it can be bloomed profitably at one dollar per hundred buds. Not only will it cover twice and three times the space in a funeral design, for instance, that a Carnation covers, but it will give greatly superior results. Try it. 50 cents per dozen; $2.50 per hundred.

SUNSET.
The color is a remarkable shade of rich, golden amber, elegantly tinged and shaded with a dark, rusty copper, intense enough in color to resemble in color rose-simmered "afterglow." 50 cents per dozen; $3.00 per hundred.

WHITE PERLE DES JARDINS.

**CRIMSON RAMBLER.**
Imported from Japan, the land of wonders. It is a rapid grower and very quickly makes heavy canes of great length, covered with peculiar, shining foliage. Blooms are produced in great bouquets, and are of a moderate size and lovely shades. This Rambling Rose is perfectly hardy even in our trying Ohio climate. A bed of these Ramblers, when in full bloom and the attention given to them, will be very useful to the general florist at blooming time. It also makes a fine pot plant, and can be thrown out and set in the garden, which forms a fine, compact bunch of bloom. This is without question the handsomest plant of any description for Easter blooming. Considered about two years old, latter for the best, dig and pot and keep cool at night for about six weeks, until flowering is active, the gradually increase temperature. Treated in this way, it produces, from the very pot to its topmost branches, huge bunches of flowers for at least two days. After blooming, prune to the ground. It is hardy, and grows well whether in a pot or in the ground.

**CLIMBING PEARL OF THE GARDENS.**
Few Roses have as firm a hold in popular favor and are so highly prized by the professional and amateur Rose growers alike as the Pearl of the Gardens. It thrives well in the open air, blooming freely. Its large, full, wondrously golden yellow flowers, borne on stiff stems, make this variety especially desirable for bouquets and artistic floral decorations. The large, firm and graceful foliage of the plant furnishes an excellent setting for the fragrant, delicate-hued blossoms. It will no doubt be a surprise to many as it has been to us to learn that this stately rose has recently evolved itself into a form which, while retaining the excellent qualities of its progenitor, has assumed a climbing habit. On the original plant the lateral growth is eighteen feet in each direction from the stem, and the plant has central, at the time of blooming, it is covered with flowers. If there is any perceptible difference between the two it is only that the Climbing form of the Gardens is even more vigorous and floriferous than the bush form. Climbing Pearl of the Gardens will supersede Marestial Niel, as its blooms are larger and of a deeper golden yellow as that variety, while it is as vigorous a climber, and will produce one hundred canes to the plant and far surpass Peary in hardiness. Dazzling, ever blooming, it is the most remarkable Rose, and without doubt the best yellow Rose ever seen. 50 cents per dozen; $3.00 per hundred.
MADAME MASSON.

HYBRID WICHURAIAANA MEMORIAL ROSES

What Mr. Manda says: “The most remarkable achievement and improvement of a new and distinct type of Hardy Roses that has been made for a generation. The growth is remarkable for its freedom, a single plant, four years old, covering a space of two hundred and forty square feet with lush blooms, twenty to twenty-five feet in length, completely covering the ground with its bright, glossy foliage and showy, fragrant flowers. The same plant can make one hundred and eight new growths of remarkable strength during the Summer. The foliage of all is leathery in texture, shining, and not only proof against insects, but evergreen—that is, keeping the foliage all Winter—a characteristic in Roses never before obtained. The flowers are produced most profusely, are all of large size, very fragrant, and can be easily used for cut-flower purposes, as much as any greenhouse Tea Rose, especially when in bud. The use of these Roses will be unlimited—for trailing or covering ground where nothing else would grow, to cover roots, stumps and stems of trees, walls and trellises, for cut-flower purposes, and also for forcing as pot plants during Spring, especially for Easter.

JERSEY BEAUTY.

Extremely vigorous grower, foliage thick, of leathery substance, flowers singly or in clusters of two to four, large, single, three inches in diameter, opening pale yellow with clusters of bright yellow stamens, which give it a novel appearance. Fragrant, and produced in greatest profusion, covering the plant entirely and having the appearance of a yellow Cherokee Rose. Great acquisition to Roses, and the most striking variety of the set.

GARDENIA.

Strong grower with large, green foliage, flowers produced singly or in clusters of two to four, large, single, three inches in diameter, opening pale yellow and when open cream color, three to three and one-half inches in diameter, inclining towards the center to perfect imitation of a Gardenia or Cape Jasmine as to shape and color, hence its name. Flowers delightful fragrant and produced freely. A grand Rose for any purpose.

Evergreen Gem.

The most wonderful grower of the set. Not only evergreen, but growing during mild weather in Winter. Stems long-branching, rich, bronze color, closely matted, flowers produced singly on stems, yellow, buff in bud, opening to almost white, two or three inches in diameter, perfectly double, and of a delightful, sweetish fragrant. This will be found most valuable for landscape work, as well as for cut-flower purposes. We consider this the best plant of the set.
General Collection of Plants.

ARACUARIA EXCELSA.

Norfolk Island Pine.—Various names have been suggested for this grand plant to properly convey to the mind the appearance of it. Some have called it the “Christmas Tree Palm,” from its resemblance to a Christmas tree; others have called it the “Star Palm,” because the leaves are arranged to form a perfect star, and no descriptive name conveys an adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other, and at regulating distances. Its symmetry of form and grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house, and is highly ornamental. It requires the same culture as the Palm. Fine plants, four-inch pots, ten to twelve inches high, three to four tiers of leaves, $1.00 each; $9.00 per dozen.

AMPELOPSIS VEITCHII.

Boston Ivy.—A beautiful, hardy climbing plant of Japanese origin. This is one of the finest climbers we know for covering walls, as it clings firmly to the smoothest surface, covering it with overlapping leaves, which form a perfect mass of foliage. The color is a fresh, deep green in Summer, changing to the brightest shades of crimson and yellow in Autumn. It is quite hardy, and becomes more popular every year. 50 cents per dozen; $3.00 per hundred.

We have some extra strong field grown plants of Ampelopsis Veitchii. Three years old, eight to ten feet long, $1.75 per dozen; $12.00 per hundred.

ACALYPHA SANDERII.

This plant goes under various names, such as “Chenille Plant,” “Philippine Medusa,” “Comet Plant,” “Dewey’s Favorite Flower,” “Bloody Cat Tail,” etc. Without doubt the most sensational new plant introduced for many years, and one of the most striking flowering ornamental plants we have ever seen. It is of strong, free growth, with large, dark green leaves from each axil of which rope-like spikes, from one to two feet long and nearly one inch thick, are gracefully suspended, as shown in our illustration, which conveys but a faint idea of the beauty and distinct warm coloring of this splendid acquisition. But the remarkable floriferousness and the great size of the spikes of flowers (compared to the plant), is very well shown. The plant is hardy and will flower the year round, and is as easily grown as a Coleus, simply requiring an average temperature to develop its full beauty. 50 cents per dozen; $3.00 per hundred.

ACALYPHA TRIUMPHANS.

This is a very ornamental bedding plant, the foliage being broad, crimson and green. Very beautiful. Grows rapidly. 50 cents per dozen; $3.50 per hundred.

Robert George.—A free and continuous bloomer. Flowers are broad, their large overlapping petals incurved, color orange, veined with crimson.

Eclipse.—This is an elegant foliage plant, and one of the prettiest we know. It is new, and the flowers, which are produced in profusion, set the plant off to good advantage.

Thomas Plena.—New. Perfectly double flowers that resemble in form a double Hollyhock. Color a rich, deep orange, shaded and streaked with crimson. foliage variegated.

Enfanta Exalta.—Flowers large and cup-shaped. Color a delicate satiny pink.

Golden Bells.—Large, bell-shaped flowers of deep yellow.

Souvenir de Bonne.—Grand green and silver variety. Fine for decoration, for edging Canna beds, for verandas. Extra large, long-stemmed orange flowers. 60 cents per dozen; $3.00 per hundred.

ASPASAS SPRENGERI.

Asparagus Sprengeri.

A most desirable new species, especially useful to grow as a pot plant for decorative purposes, or for planting in suspended baskets. The fronds are frequently four feet long, of a rich shade of green, and most useful for cutting, retaining their freshness for weeks after being cut. It will make an excellent house plant, as it withstands dry atmosphere, and will succeed in almost any situation. 50 cts. per dozen; $2.50 per hundred.

ASPASAS PLUMOSUS NANUS.

The Climbing Lace Fern.—This graceful climber has, to a great extent, taken the place of the once popular Smilax in all fine decorations. It possesses the advantage of being much more graceful—its foliage being finer than that of the most delicate Fern, and will last for weeks after being cut, the whole plant being of a bright, cheerful green. It is an excellent house plant, succeeding under almost any condition. 50 cents per dozen; $3.50 per hundred.

General Collection of Plants.

ARACARIA EXCELSA.

Norfolk Island Pine.—Various names have been suggested for this grand plant to properly convey the grand appearance of it. Some have called it the “Christmas Tree Palm,” from its resemblance to a Christmas tree; others have called it the “Star Palm,” because the leaves are arranged to form a perfect star, but no descriptive name can convey an adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances. Its symmetry of form and color of foliage are unequalled in the vegetable kingdom. It is easily grown in the house, and is highly ornamental. It requires the same culture as the Palm. Fine plants, four-inch pots, ten to twelve inches high, three to four tiers of leaves, $1.00 each; $9.00 per dozen.

AMPELOPSIS VEITCHII.

It is quite hardy, and becomes more popular every year. 50 cents per dozen; $3.00 per hundred.

Acalypha Sanderv. Norfolk Island Pine.

This plant goes under various names, such as "Cedrela," "Philippine Medusa," "Comet Plant," "Dewey’s Favorite Flower," "Bloody Cut Tail," etc. Without doubt the most sensational new plant introduced for many years, and one of the most striking flowering ornamental plants we have ever seen. It is strong, free growth, with large, dark green leaves from each axil of which rose-like spikes, from one to two feet long and nearly one inch thick, are gracefully suspended, as shown in our illustration, which conveys but a faint idea of the beauty and distinct warm coloring of this splendid acquisition. But the remarkable serrated edges and the great size of the spikes of flowers (compared to the plant) is fairly well shown. The plant is hardy the year round, and is as easily grown as a Coleus, simply requiring a warm temperature to develop its full beauty. 50 cents per dozen; $3.00 per hundred.

November in Dahlias

Within the last year or two a wonderful revival of interest in the Dahlia has resulted in their now being important rivals of those standard bedding plants, the Canna and Geranium. THE WONDERFUL JAPANESE FERN BALLS.

Fern Ball

This novelty from Japan we take great pleasure in introducing as one of the most satisfactory house Ferns ever offered. One was started last January, and its beautiful leaves and color attracted the attention of all who saw it until August, when it was placed in the cellar to rest. The center is moss-covered with Fern roots in a very ingenious manner, looking like a ball of small roots twisted together. After watering they start into life, and in a short time are covered with a mass of beautiful green foliage. If desired they may be allowed to dry up, which is very convenient when a person goes on a Summer vacation. They may be started again by simply watering as before. When growing they should be watered two or three times each week. If desired they may be cut in halves and placed in a Fern dish. The ball, before it is started, is six to ten inches in diameter. We only handle the "Nakage," long-leaved variety; the common variety only produces short fronds. Can only be sent by express. 40 cents each; $1.00 per dozen.

THE GLADIOLUS.

The Gladiolus is the most satisfactory, the most desirable and the most popular of all garden bulbs. Nothing else in the flower line costs so little, and nothing else grows and blooms so readily for anybody and everybody, in any soil or climate. It makes a display which, for brilliancy and beauty of coloring, few bulbs can equal and none surpass.

GLADIOLI—MIXED VARIETIES.

Our mixed Gladioli are not the poor, dull colors, old discarded red sorts and worthless seedlings usually sent out as mixtures. On the contrary, they are made up from splendid named sorts, brightest and most varied colors, white, yellow, pink, rose, blue, Intense scarlet, carmine, violet, striped, blotched, variegated, etc. All old, common and poor sorts have been discarded, and this mixture is of the highest grade.

GLOXINIAS

These are among the most beautiful of all our Summer-blooming plants. The rosette of velvety green leaves is surmounted with a cluster of lovely trumpet-shaped flowers as large as Gladioli blooms. The coloring is exquisite. The ground work of many is pure white, with throats of blue, scarlet, rose, crimson or velvety purple, while others are beautifully flecked and striped with the brightest colors, and the tubes are of a bright color with white throat. The bulbs should be started in a warm place, greenhouse, hotbed or sunny window. They will bloom until late in Summer, when they should be dried off, letting the leaves dry. The pots can be kept over Winter in a cellar free from frost. They are very easily grown.

Fine bulbs of choicest varieties, 60 cents per dozen; $4.00 per hundred.

GREVILLEA ROBUSTA, AUSTRALIAN SILK TREE.

GENISTA CANARIENSIS—Fountain of Gold.

This beautiful plant well deserves the great popularity it has gained in the past two years. The drooping branches are covered with delicate, sage-green foliage, and every twig is tipped with a long raceme of exquisite, pea-shaped blossoms of a pure canary color, almost hiding the foliage, and suggesting the name "Fountain of Gold." Charming. 40 cents per dozen; $3.00 per hundred.

CHINESE HIBISCUS.

Lily of the Valley.

Justicia.
The Wonderful New Lemon, Ponderosa.

Nothing that has ever been brought to our notice in the plant line has caused half the commotion that this wonderful Lemon has. It is a true ever-bearing variety. On a plant six feet high no less than eighty-nine of these ponderous Lemons were growing at one time. It was a beautiful sight to see. The tree was blooming, and at the same time had fruit at all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. Fruit has been taken from this tree weighing over four pounds. The Lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It is not uncommon to make twelve lemon pies from one lemon. We have the entire stock of this ponderous Lemon, and guarantee the trees to produce the same large fruit. No budding or grafting necessary. Ponderosa Lemon is sure to become popular when it is known. It fruits when quite small, and makes a lovely house plant. Everybody can grow their own lemons. Will fruit freely the second year. Thriving young plants $1.00 per dozen; $7.00 per hundred.

Otaheite Orange.

This valuable and distinct variety of the Orange family is a dwarf, compact grower, with glossy, deep green foliage, which has a decided odor of the orange trees of Florida, and is exceedingly barerous, producing a wonderful profusion of pure white flowers of the most delicious fragrance, identical with the much sought for blooms of Southern orange groves. Otaheite fruits immediately after flowering, bearing fruit about one-half the size of the ordinary Orange, retaining in a marked degree its sweetness. This unique Orange cannot be beaten as a Winter blooming pot plant for house culture, and is of the easiest culture. Requires but little sunlight, and flowers and fruits when but twelve to fifteen inches high. As a pot plant this lovely dwarf orange is one of the most novel and beautiful that can be grown. With a couple of plants of it you can have an abundance of the far-famed delicate and fragrant Orange blossoms. We have grown a large stock of this beautiful Orange, clean, vigorous plants that will bloom and fruit at once, and commend it to our friends as a novelty of sterling worth and merit. 50 cents per dozen; $2.50 per hundred; $35.00 per thousand; fine plants from three-inch pots, 60 cts. per dozen; $1.00 per hundred.

Moon Flowers.
The True Ever-blooming Moon Flower, Ipomea Grandiflora—We have the true variety that blooms constantly. If planted out in rich ground, in a situation where it has full exposure to the sun, it will attain a height of 15 feet in about six weeks, and bloom abundantly throughout the season. It is called “Moon Flower” from its pure peculiarity of blooming best at night, although it expands its flowers in full days. The flowers are pure white, from five to six inches in diameter, emitting a rich, Jasmine-like odor at night. The “Moon Flower” is a tender plant, but it can easily be kept in the house over winter. It roots so easily from slips that no attempt should be made to lift large plants. The true “Moon Flower,” 50 cents per dozen; $3.00 per hundred.

Moon Flower, Larkspur, or Heavenly Blue.—This makes a splendid companion plant to the white “Moon Flower.” It is equally rapid in growth and as free blooming as the white variety, although blooming in the morning and dull days. The flowers are the most heavenly blue, with reddish purple rays, and are six inches across. 50 cents per dozen; $3.00 per hundred.

ORANGE KUMQUAT, HARDY PHLOX.

OR KIN KAN.

This unique and wonderfully beautiful Orange is a native of Japan, where it is known as the Kin Kan, which means golden orange; its other name—Kumquat—is Chinese for the same meaning. It bears in the most marvelous profusion little miniature oranges, no larger than a drainless plum, of a rich golden color and glittering amid the dark foliage like burnished gold. The whole fruit, rind and all, is eaten, and people become very fond of them. The rind is sweet and the pulp agreeably acid, making a piquant combination. They are also delicious preserved and crystallized. The plants begin to bear just as soon as they have wood enough to hold the fruit, and are loaded with fruits and flowers every year. We have had bushes only twelve inches high carrying upward of one hundred oranges.

We have put in cuttings in the Fall that started growth the following March, bloomed and set fruit in June, which ripened in the Fall—only one year from the time the cuttings were propagated! A small tree, not more than six feet high and five feet through, bore over two thousand fruits, and this is by no means an extraordinary yield for this sort. The branches are slender, without thorns, the leaves narrow and oval, and the plant assumes a fine shape. As a pot plant it will create a sensation everywhere grown. As a window plant for the North as well as for gardens in the Orange region, the Kin Kan is one of the handsomest and most valuable ornamentals. Diminutive trees in pots are loaded with fruits and flowers every year. The small but exquisitely beautiful fruit hangs on the unique and handsome evergreen trees all winter. Fine plants, to bear at once, 50 cents each.

OXALIS, ORTGESI.

Upright Oxalis, or Star of Bethlehem.—Few new plants will give better satisfaction than this, as it is a perpetual bloomer in every sense of the word. It is full of bloom every day in the year when grown in a pot of good soil and with ordinary care. It grows as freely as a Geranium in any situation. It is a shrubby plant, like a Geranium or Puschia without buds, in which respect it differs from other Oxalis. It grows twelve to eighteen inches in height, branching freely, and loaded at all times with clusters of bright golden, star-shaped flowers which do not close at night like other Oxalis. Beautiful as the flowers are it is still a splendid plant without them, on account of its highly ornamental foliage. The leaves are three lobed, dark, olive green above, and a beautiful, shining metallic crimson purple underneath, and wine-colored stems. This makes a truly novel plant, as well as a very beautiful one, and it is surprising to see what attention it will attract. 50 cents per dozen; $3.00 per hundred.

PHILADELPHUS, MOCK ORANGE.

Grows to a height of eight to ten feet. Very fragrant flowers. 75 cents per dozen.

PLUMBAGOS.

Sanguinea.—The Plumbagos are very desirable plants for bedding or house culture, and are admired by all for their elegant trusses of bloom and the delicate colors of their flowers. The light blue and deep blue and white varieties are well known favorites, but with the new variety Sanguinea, we have something that is entirely distinct and the prettiest of all Plumbagos. The trusses of bloom are larger than in the older varieties, often measuring ten inches in length, and of the loveliest bright pink or deep rose. Order one and be surprised. 50 cents per dozen; $3.50 per hundred.

Lady Larpent.—The hardy deep blue variety. 35 cents per dozen; $3.50 per hundred.

HARDY SCOTCH, or Sweet May Pinks.

These are the Pinks of Our Mothers’ Gardens. They are dwarfer than the Carnation, growing about one foot in height, the color being of the various shades of maroon, carmine and rose, beautifully laced and banded on white ground. The flowers are perfectly double, clove scented, and the plants will stand out of doors year after year, being entirely hardy. 40 cents per dozen; $2.50 per hundred.

PÆONIES.—The Pines of Our Mothers’ Gardens.

These species do not die down to the ground like the herbaceous sorts, but make fine bushes three to four feet high, covered in Spring with immense flowers. 40 cents each.

Illustrations given, as they do not show their character leaves until the second year, so that when you get your small Palm plants, and see long, narrow leaves instead of the character leaves as shown in the illustrations, do not think the wrong kind has been sent you. Should you order the larger sizes, the character leaves will be developed and answer the illustrations as given here. The following is a select list of rare and handsome varieties that can be recommended for apartments, conservatories, decorations or vase plants during the Summer. They are all grand plants, and of the easiest culture.
NEW EVER-BLOOMING BABY PRIMROSE.

This is the freest-blooming plant we know of, blooming continuously throughout the entire season. Plants in very small pots have from fifteen to twenty sprays of lovely bright pink flowers on stems ten to twelve inches high at one time, and plants in four-inch pots often have from twenty-five to thirty at one time, lasting in bloom fully four weeks without fading, and continually sending up new sprays all over the plant, making it one of the most desirable plants for the house ever introduced. It is a very rapid grower and the easiest to please of all Primroses for indoor culture. Very desirable, 40 cents per dozen; $3.50 per hundred.

PRIMULA OCONICA.

Always in Bloom.—This is a charming plant for Winter. In fact, we know of none that is better adapted to home culture than this one. It is not susceptible to changes of temperature that most plants are subject to. It bears its elegant panicles and sprays of bloom of a delicate pink and white in the greatest profusion. It is certainly elegant. 30 cents per dozen; $2.00 per hundred.

PYRUS JAPONICA, BURNING BUSH, OR JAPAN QUINCE.

PHRYNIA VARIEGATUM.

The Most Ornamental Plant Imaginable.

It is impossible to convey by description or cut anything like a correct idea of the great beauty of this new, ornamental foliage plant. Its habit of growth is almost precisely like the Cannas, and it grows from a tuber which may be wintered dry—like a Gladiolus—if desired, or it may be kept growing the year round as a pot plant. The cannas-like shoots grow from a foot or eighteen inches to three feet high, and the leaves, which are spreading blades of oblong, lanceolate form, are from six to ten inches long and two to five inches broad. They are bright, pale green, beautifully variegated with pure white and rich cream, and the variegations being extremely diversified. Indeed, in our beds of thousands of the plants it is almost impossible to find two leaves exactly alike. In some leaves the whole area is covered with pure white or rich cream color, in others only one-third or one-half; in others again it is reduced to a few stripes of faint lines—and all these variegations in one plant. It is the only ornamental plant imaginable, either for pot culture or for bedding out. It is a grand plant to border any beds with, standing the hard weather in the fall and winter, and indeed the fresher the sunshine the more perfect are the variegations of the leaves. The variegations grow constantly better and more varied as the plant grows older and larger. It is managed with the most perfect ease, and is absolutely sure to delight all who grow it. 50 cents per dozen; $3.50 per hundred.
